Why is there no figure in box 1?

An educational institution may either report **payments** made by the student for qualified tuition and related expenses (Box 1) OR they may report the **amount billed** to the student for qualified tuition and related expenses (Box 2). Wayland Baptist University chooses to report box 2 qualified tuition and related expenses.

To retrieve a **complete listing of your account transactions from Wayland**, please log into Self Service <https://selfservice.Wayland Baptist University.edu/>. Click on the **Finances** tab, and then click on the **Balance** link.

What educational expenses are considered as qualified tuition and related expenses for purposes of box 2?

Qualified tuition and related expenses refer to tuition and required fees a student must pay to be enrolled at or attend an eligible educational institution. These fees include lab fees, particular class fees, compliance & data service fees, and general fees.

Qualified expenses **do not** include charges and fees for room, board, insurance, transportation, personal, living and other family expenses.

How did the University figure out what amounts to include in box 5?

The figure in box 5 includes scholarships, grants and, if applicable, payments made by a third party under formal billing arrangements which have been administered by Wayland Baptist University such as outside scholarships and employer provided educational assistance.

If you received other forms of outside scholarships and grants not administered by Wayland Baptist University, it is your responsibility to adjust the figure accordingly. Third party payments do not include payments made by your parent or other individuals.

How does the GI Bill or military tuition assistance affect box 5?

The GI Bill or military tuition assistance are not included in box 5 for scholarships or grants.
